

TO WHOM IT MAY CONCERN

It is my great pleasure to endorse the work which Charkha Development Communication Network does. I have had the privilege of being associated with the organization from 2006 to 2010 through **Sasakawa Peace Foundation** when we funded Charkha's project – '**Strengthening Charkha's feature service in India**'.

During the period I accompanied the Charkha team to the field where writing skill workshops were conducted and I was able to experience first-hand the immense dedication and hard work which the entire team displayed.

Charkha always stuck to timelines and their monitoring and evaluation was outstanding. Through their **Trilingual Feature Service** and the **grassroots writers** trained by them they were able to highlight the most critical issues from the remotest villages of **Uttar Pradesh, Uttaranchal, Bihar, Jharkhand and Chhattisgarh**.

Their understanding and linkages with the Media has also been excellent over the years.

I therefore highly recommend Charkha to any organization who wishes to highlight any social or development issue and make a difference in a positive way.

If you need any further information about Charkha, please do not hesitate to contact me.

Yours Sincerely,
